Installation Contractor
California

To Whom it may concern:

Root Solutions Root Barriers Panels (**RS-12** through **RS-60**) are manufactured at our plant in San Leandro, California.

Panels are manufactured by extrusion from 100% locally recycled polyethylene plastic with a minimum of 20% post consumer content.

If you have any further questions regarding the process or the material content, please feel free to call the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael E. Miller", with a long horizontal flourish underneath.

Michael E. Miller
President.
